

## METH TASK FORCE MEETING NOTES

September 10, 2009

Colleen Pyra from the Partnership for a Drug Free America presented new trends in teen drug use. She also discussed the possibility of a grant made possible from the AZ Dept of the Environmental Quality. It would allow for the MTF to become Alliance members. This will allow for 2 MTF members to go to Phoenix for education twice a year and for the MTF to have free anti-drug campaign material. It would also allow for Cochise County to have a drug incinerator. In exchange, the MTF would present to the Partnership their achievements locally.
